How long does a solar inverter last?

A: Yes, 18 months for inverter and inverter-related products including solar generator, solar inverter. 2 years for solar lights. Q4: Can you do OEM/ODM? A: Yes, we accept OEM/ODM orders for inverter, solar inverter, MPPT solar controllers, solar generator and solar lights. Please send your detailed request to our sales specialist for best quote.

What is an off-grid inverter?

Inverters used in off-grid systems serve a crucial role in providing reliable and usable AC power from DC sources, such as batteries and solar panels. Off-grid systems operate independently of the utility grid, making them suitable for locations where the grid connection is not available or practical.

How does a solar inverter work?

An inverter used in a solar-first, mains complementary system works on a priority-based principle, where solar energy is given precedence over the mains power supply. The inverter intelligently manages power sources to maximize the use of solar energy while seamlessly switching to mains power when solar production is insufficient.

What is a Hi series IGBT power inverter?

Our HI Series IGBT Power Inverter Charger/Off-Grid Inverter is the ultimate solution for reliable and efficient power management. Whether you seek backup power for emergencies or dream of going off-grid, this inverter empowers you to take control of your energy needs. *Utility battery charging current 0A - 30A option.

Dec 2, 2025 · Integrated design: built-in MPPT controller, charger, rectifier, inverter, display system, active circuit, etc. Multi-working mode: solar grid ...
