What are Eaton's modular data center solutions?

Eaton's modular data center solutions are designed to your specific needs and easily scalable and space saving with no customer white space consumed. Eaton's modular data center solutions are custom engineered to site-specific infrastructure requirements including power distribution, IT infrastructure, HVAC, etc. all in one enclosure.

What is a rakworx Smart Modular data center?

RakworX's Prefabricated Smart Modular Data Center (MDC) is an energy-efficient, high-performance solution with natural air cooling for a PUE as low as 1.1. It's a fully contained, adaptable data center designed for rapid deployment, scalability, and growth. Our Small Chamber add-on optimizes airflow, enhancing cooling by containing cold air.

What is a modular data center?

The modular data center combines your servers--regardless of make or model--with Eaton electrical equipment in a single building, reducing complexity, speeding deployment, and delivering optimum efficiency and the lowest cost throughout the life cycle of your data center.

What is a modular rack?

The modular rack is essential gear for data centers. Delta has developed a modular rack that increases space utilization and heat dissipation via 70% perforation to meet high density IT room requirements. Customer's Site Control Network Application Controller Fieldbus MCB Motor Load Line Supply (Pump) MVD Conformance Protection Rating IP20
