-----  
Are EPC contracts available in New Zealand?

EPC contracts are commonly used overseas (including in Australia). However, until recently, they have not been as frequently or commonly used in New Zealand, and there is currently no New Zealand standard form EPC contract available for use by renewable energy developers.

What is the Dannevirke solar & energy storage project?

The Dannevirke Solar & Energy Storage Project is a 107 MW solar farm in Taranaki District, featuring optional battery storage of up to 72 MWh / 150-300 MWh. With a 40-year operational life, it will generate 181 GWh annually--enough to power 25,000 homes--and cut carbon emissions by 13,000 tonnes.

Will Infratec build a new energy storage system in New Zealand?

Infratec general manager Nick Bibby said that the storage system is "the first of its scale to be built in New Zealand". As reported by Energy-Storage.news, the two companies completed their assessment of the project in late 2021, selecting a site in Huntly, a town in the Waikato District.

How are solar projects procured in New Zealand?

Solar projects are typically procured on the basis of an EPC contracting model (in large part due to the "bankability" of this model). However, EPC contracts are not common in the domestic construction industry - there is no market 'standard' form in New Zealand.

The average price of EPC for energy storage projects generally falls within the range of \$1,000 to \$3,000 per installed kilowatt; this cost can fluctuate based on various factors such as project ...
