What is a solar inverter warranty?

A solar inverter warranty is an assurance provided by the solar panel manufacturer or installer to assure protection for panel reliability, production output, and several other factors. It is important to select the best warranty for solar panel inverters for the following reasons:

Can a solar inverter warranty be void if I move?

3. Equipment Relocation: If you decide to move your equipment and re-install solar inverters in a new location, there are chances that your warranty might be void if you haven't followed the terms and conditions before relocating. 4.

Are inverter warranties better than solar panels?

Unlike solar panel warranties, inverter product warranties are harder to compare apples-to-apples.

How long does a solar inverter last?

While the warranty terms for inverters themselves vary, warranties for communications equipment (which allow the inverter to connect to other devices like solar panels and battery systems) are typically capped at 5 years for both string inverters and microinverters.
