What is offshore solar?

RWE has more than 30 years' experience in the construction and operation of solar power plants. Offshore solar has the potential to be an exciting evolution of onshore and lake-based technology and opens a new door to gigawatt-scale solar energy generation, particularly for markets who are experiencing the challenge of land scarcity.

Is Hamburg a sustainable port?

Hamburg signed shore power declaration at the One Ocean Summit 2022, agreeing to make best efforts to deploy shore-side electricity supply by 2028. Port of Hamburg adheres to the World Ports Sustainability Program and considers the 17 UN Sustainable Development Goals as a single and indivisible orientation for the sustainable development of ports.

Does Hamburg have shore power?

The Port of Hamburg has a great amount of experience in shore power, starting with the Altona project in 2016. The total amount of installed shore power by 2024 would be an amazing 72 MVA. When does the use of shore power become cost-effective for shipowners under new EU and IMO regulations?

How does offshore solar work?

Offshore solar uses similar technology to land-based solar but the modules and inverters are mounted on floating substructures and are secured to the seabed with mooring lines and anchors. The generated electricity is transmitted to shore via subsea cables.

Jan 12, 2024&ensp;&#0183;&ensp;Hamburg Port Authority (HPA) and electricity supplier Hamburger Energiewerke (HENW) have decided to create a joint venture ...

Offshore solar uses similar technology to land-based solar but the modules and inverters are mounted on

floating substructures and are secured to the seabed with mooring lines and ...

Sep 23, 2024&ensp;&#0183;&ensp;The so-called Renewable Energies Hub brings together teams from the segments Offshore Wind and Onshore Renewables as well as from startup NASH Renewables, which ...

Mar 6, 2024&ensp;&#0183;&ensp;The Port of Hamburg is setting new standards in Europe by being the first port to offer a comprehensive shore power supply for both cruise ships and container ships. This ...

Feb 12, 2024&ensp;&#0183;&ensp;Oceans of Energy together with fifteen leading European partners announce the start of an EU Joint Industry Project, in which ...

Offshore solar uses similar technology to land-based solar but the modules and inverters are mounted on floating substructures and are secured to ...

Jul 15, 2020&ensp;&#0183;&ensp;Nineteen solar panels with battery packs provide power for the mooring systems, built by Netherlands company Straatman BV The Port ...

Jul 15, 2020&ensp;&#0183;&ensp;Nineteen solar panels with battery packs provide power for the mooring systems, built by Netherlands company Straatman BV The Port of Hamburg's berthing area is the result ...

Port of Hamburg kick-starts the Sustainable Energy Hub Initiative The Port of Hamburg is taking advantage of the opportunities presented by the energy transition and positioning itself as a ...

Jul 14, 2020&ensp;&#0183;&ensp;A newly-built berthing area in the Elbe River is powered by nineteen solar panels. The panels provide power to quick-release mooring hook units with integrated capstans. ...

Feb 12, 2024&ensp;&#0183;&ensp;Oceans of Energy together with fifteen leading European partners announce the start of an EU Joint Industry Project, in which offshore solar technology is scaled up to formats ...

Oct 19, 2022&ensp;&#0183;&ensp;Port of Hamburg has the ambition to become carbon neutral by 2040. It is one of the most ambitious ports in terms of sustainability in the world and has an installed capacity of ...

Jan 12, 2024&ensp;&#0183;&ensp;Hamburg Port Authority (HPA) and electricity supplier Hamburger Energiewerke (HENW) have decided to create a joint venture to drive forward the decarbonization of the Port ...

Port of Hamburg kick-starts the Sustainable Energy Hub Initiative The Port of Hamburg is taking advantage of the opportunities presented by the ...

Offshore wind farms generate clean electricity throughout the year, ensuring a secure power supply for industry and businesses all over Hamburg and Germany. As such, offshore wind ...
