Where are Maxeon solar panels made?

Solar panel assembly at Maxeon's facility in Mexico. 1:45 p.m. Update: Mexico reached an agreement with the U.S. that will delay tariffs for a month, but tariffs against Canada and China are still set to go into effect on February 4, according to The New York Times.

Which solar companies are affected by new tariffs on Canada & Mexico?

Outside of China, a few major U.S. solar suppliers will be affected by new tariffs on Canada and Mexico, including solar panel manufacturers Heliene, Silfab and Maxeon and inverter manufacturer Hoymiles. See our extended coverage on the tariffs affecting the solar industry.

Do US solar panel assemblers interact with Chinese solar wafers?

As Solar Power World previously reported, it's unlikely U.S. solar panel assemblers interact much with Chinese solar wafers, as much of the supply to the United States comes from Southeast Asian countries instead -- which now have their own antidumping and countervailing duties.

Which solar technology is best for commercial rooftop projects?

6. LONGi Solar (China) The monocrystalline technology leader has supplied over 1GW of modules to Mexican projects since 2023. Their HPBC technology with 24.2% efficiency has been particularly successful in commercial rooftop applications where space constraints demand high power density.
