What is americase lithium-ion battery storage cabinet?

The Americase Lithium-Ion Battery Storage Cabinet provides safe, scalable, and compliant storage for lithium-ion batteries in data center environments. Designed to exceed IFC24 fire-containment standards, it enables secure storage of bulk, damaged, or prototype batteries without the need for a separate fire-rated room.

What is a lithium ion storage cabinet?

Customizable to your battery sizes, quantity and other specifications. Full Thermal Runaway Containment: The Lithium-Ion Storage Cabinet exceeds all IFC24 storage standards and eliminates the need for a separate dangerous goods fire-rated room, driving significant time and cost savings.

What is a battery storage cabinet?

Designed to exceed IFC24 fire-containment standards, it enables secure storage of bulk, damaged, or prototype batteries without the need for a separate fire-rated room. Lightweight, mobile, and field-repairable, the cabinet combines long-term durability with sustainable construction.

What are Arimon battery cabinets?

Arimon uninterruptible power supply (UPS) backup battery cabinets are available for either front access batteries or top terminal (monobloc) batteries. All battery cabinets are constructed from heavy gauge steel with a durable welded frame and acid resistant powder coated finish available in a wide range of colors.
