Are battery energy storage systems legal in Poland?

Despite increasing regulatory activity, Poland still lacks a dedicated legal framework for Battery energy storage systems. Key risks include: Investors should conduct due diligence early and maintain close coordination with public authorities. Need legal support for a BESS project in Poland?

What are the new energy storage rules in Poland?

Poland's new rules state that energy storage facilities over 10MW require licensing to ensure they can provide services to Poland's National Power System. Facilities 10MW or smaller do not need licensing but do need to register with the transmission system operator or distribution system operator for their area.

What is Polish Energy Storage Association?

Polish Energy Storage Association - together we are building a modern, solid and secure electric power system in Poland. We are integrating innovative companies and organisations involved in developing the power sector and environment protection, we are promoting and supporting energy storage facilities.

What are the legal requirements for building a Bess in Poland?

Below, we outline the key legal requirements for building and operating BESS in Poland in 2025, including zoning, environmental permits, grid connection, and operational licensing. Where can a BESS be built in Poland? Before initiating a BESS investment, selecting a suitable site is critical.

The agreement's objective is to increase the security of the Polish energy system by developing smart grids and electricity storage facilities. The project involves utilising electricity storage ...

Poland's energy storage landscape has become a battleground between ambitious climate targets and practical grid economics. With 9GW of battery projects already permitted but only 10MW ...

Nov 13, 2025&nbsp;&#0183;&nbsp;&#0183;Poland's lower house of parliament, the Sejm, has passed amendments to

the Building Law removing the requirement for a building permit to construct energy storage ...

It promotes safety standards for the use of energy storage, taking into account legal, technical and economic security. It closely cooperates with research centers, supporting their initiatives ...

Dec 4, 2025&ensp;&#0183;&ensp;The growing popularity of energy storage in multifamily housing in Poland, new regulations affecting the safety and efficiency of energy technology installations.

Feb 26, 2024&ensp;&#0183;&ensp;Energy storage in Poland - summary and conclusions The subject of electricity storage holds paramount importance in the renewable energy sector. Legal regulations are ...

Mar 28, 2025&ensp;&#0183;&ensp;Poland has launched its capex support scheme for grid-supporting BESS and PGE has revealed its long-term deployment plans.

The amendment provides the Polish statutory law with a broadly presented definition of an energy storage device. The act also introduces the terms of an energy cluster and of an energy ...

Aug 3, 2025&ensp;&#0183;&ensp;Battery Energy Storage Systems in 2025 - check regulations, permits, BESS registration, and legal risks for investors in Poland.

Nov 14, 2025&ensp;&#0183;&ensp;Poland's updated energy storage regulation raises permit-free thresholds and streamlines approval for small-scale battery systems, supporting wider market adoption.
