Are network cabinets compatible with server cabinets?

Our network cabinets seamlessly interface with server cabinets, creating a cohesive infrastructure that simplifies power distribution and monitoring. Compatibility with standard 19-inch rack units ensures that server rack cabinets and network racks can be installed side-by-side.

What is a CPI network cabinet?

CPI's network cabinets provide a robust foundation for any data center, delivering secure enclosure and organized cable pathways. Engineered with precision, each cabinet supports high-density equipment while maintaining accessibility for maintenance. The design aligns with industry standards to ensure compatibility across a wide range of devices.

Why should you choose CPI data center cabinets?

Thermal efficiency is a core focus, with built-in containment options that support the demands of modern data center cabinets. The cabinets can be paired with CPI's air containment and liquid cooling solutions for environments that require aggressive heat mitigation.
