What is a 5G cloud base station?

The 5G cloud base station for industry is based on ZTE's unique NodeEngine computing power base station solution.

What is onv-iot9000-ck-Si intelligent power box?

The ONV-IoT9000-CK-SI intelligent power box is an intelligent power control system with high integration, strong functionality, and simple installation. It adopts a modular structure, 1 main control unit, multiple groups of voltage detection, and back-end platform remote control output.

Can a single board be added to a base station?

Only one board need be added to the existing base stations to implement one-stop deployment of cloud, network, and services, greatly reducing private network deployment and operation costs.
