Which solar inverter is best?

CNET experts have compared the most popular solar inverters' specs,warranties,prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025. It was the most efficient inverter we looked at,letting you use a larger percentage of the energy your solar panels generate. This translates to less and more power to use around the house.

Do you need a solar inverter?

Solar inverters are a necessary but often forgotten part of a home solar panel system since they convert sunlight into usable electricity for your home appliances. Without a solar inverter,you wouldn't be able to use those solar panels to power your home.

Which solar inverter should I buy in 2025?

Every solar system needs some kind of inverter to convert sunlight into usable electricity. CNET experts have compared the most popular solar inverters' specs,warranties,prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025.

How do I choose a solar inverter?

Ensure the inverter matches the specifications of your solar panels and overall system capacity. For example,a mismatch between panel wattage and inverter capacity can lead to energy loss or system inefficiency. ESAS experts can help you ensure perfect compatibility. Look for inverters with high efficiency ratings,typically above 95%.
