Will Qatar build an eco-friendly floating hotel by 2025?

Qatar plans to construct an eco-friendly floating hotel by 2025 that will bring a unique, rotating design to luxury accommodations. Created by Turkey's Hayri Atak Architectural Design Studio, the floating hotel will feature 152 rooms that slowly rotate every 24 hours, offering guests 360-degree ocean views.

Will Qatar's floating hotel be an architectural wonder?

Qatar's floating hotel, if materialised, will be an architectural wonder. (Credit: Hayri Atak Architectural Design Studio). The proposed five-star, 152-room marvel spans a whopping 8.6 acres and is designed to blow your mind with its unique offerings.

What is Qatar's eco-floating hotel?

Qatar's Eco-Floating Hotel is more than just an architectural wonder; it symbolizes a new era of sustainable luxury. The project aligns with global efforts to combat climate change by reducing carbon footprints and promoting renewable energy sources.

What is a sustainable luxury project in Qatar?

Luxurious amenities like indoor and outdoor pools, a spa, gym, and mini-golf are also planned. With feasibility studies still underway, this innovative project aims to create a model of sustainable luxury in Qatar's tourism sector, setting new standards for environmental and design excellence.
