What is a LiFePO4 battery pack?

The actual size and shape of a LiFePO4 battery packs can vary based on the equipment expected to power. One of the most common forms these batteries take is that of large blue brick, connecting to the object they provide energy to with a small cord.

What is the service life of LiFePO4 batteries?

LiFePO4 batteries have a service life that is 8 to 10 times longer than standard lead-acid batteries. Their weight is 30% lighter than the lead-acid battery of the same capacity, helping to minimize replacement cost and reduce total cost of ownership.

Are LiFePO4 batteries good for emergency lighting?

Emergency lighting - In buildings that utilize emergency lighting systems for situations like blackouts, it's not uncommon to find LiFePO4 batteries as the power source. The fact they pack so much punch in such a small form while not relying on an electrical grid for energy makes them a good option for all kinds of emergency supplies.
