-----  
Why should Serbia invest in solar power plants?

Located throughout the country, these solar power plants will help Serbia improve energy security, avoid expensive energy imports, and achieve electricity independence at an affordable price. The modernization of the EPS and renewing Serbia's Energy Generation Portfolio will have a lasting impact on communities throughout Serbia.

What is UGT renewables Serbia solar?

UGT Renewables Serbia Solar is a ground-mounted solar project, which is planned over 2,000 hectares. The electricity generated from the Serbia Solar PV will offset 1,900,000t of carbon dioxide emissions (CO2) a year. UGT Renewables Serbia Solar PV will be a 1,000MW solar PV power project developed in a single phase.

What jobs will be created in Serbia?

In addition to helping Serbia reach its National Energy and Climate Goals, local jobs will be created in fields including Surveying, Spatial Planning, Power System Assessment, Legal/Regulatory Tasks, and Project Construction. UGT Renewables Serbia Solar is a ground-mounted solar project, which is planned over 2,000 hectares.

Touted as the world's largest of its kind, the phase II project is expected to enable the power station to achieve the largest capacity globally and the highest level of power ...
