What is a lithium battery for a forklift?

The forklift lithium battery is a battery based on lithium iron phosphate (LiFePO₄) technology designed for electric forklifts. Lithium batteries offer higher energy density, faster charging speeds, and longer service life than traditional lead-acid batteries, making them ideal for powering forklifts. How long do lithium batteries last?

Who makes a battery for a forklift?

EKT is a lithium-ion battery specialist, we manufacture battery solutions for all models of forklifts, offering customization to suit your forklift, application and budget. Custom options we offer include battery pack integration, battery management systems, and more.

Which forklift batteries are supported?

The supported forklift brands include almost all the famous forklifts (which previously operated by the lead acid or SLA batteries) like Linde, Crown, Toyota, Hyster, Yale, Clark, Jungheinrich, Doosan, Hyundai, Caterpillar, Combilift etc. For any customized styled of forklift battery replacement, please don't hesitate to send us your project details.

Is a forklift lithium battery maintenance free?

Unlike conventional batteries, forklift lithium battery is completely maintenance free. It does not require water refilling, equalisation charging or regular maintenance, thus saving labour and operating costs. How long does it take to charge a forklift lithium battery?
