-----  
How to export lithium batteries in China?

Exporting lithium batteries requires strict compliance, smooth logistics, and reliable port selection. Choosing the wrong port can lead to delays or rejected shipments. The best ports in China for exporting lithium batteries are Shenzhen, Shanghai, and Ningbo.

Are lithium batteries safe to ship from China?

With China being the world's largest producer of lithium batteries, businesses worldwide rely on Chinese suppliers for cost-effective, high-quality battery solutions. However, importing and shipping lithium batteries from China comes with strict international regulations due to their classification as hazardous materials.

Can a lithium battery be shipped by sea freight?

Only lithium batteries that comply with IATA (International Air Transport Association) standards can be transported. Sea Freight is ideal for bulk shipments of EV batteries, industrial battery packs, and large orders. However, shipping times are longer, and proper dangerous goods documentation is required.

Which shipping method is best for lithium batteries?

If shipping large quantities (e.g., EV batteries, industrial battery packs), sea freight is the most economical choice. However, for time-sensitive orders, air freight or express shipping is recommended. Packaging and Labeling Requirements for Lithium Batteries
