Where is a 35 MW solar project being built in Angola?

Construction is underway of a 35 MW solar project in Angola. The Quilemba photovoltaic power plant, first announced in October 2021, will be located near Lubango in the south of the country. It is being built by Angolan company Quilemba Solar Lda, a joint venture between TotalEnergies (51%), Sonangol (30%) and Maurel & Prom (19%).

How big is Angola's new solar power plant?

The project has an initial capacity of 35 MW, expected to come on stream during the first half of next year, with possibility of adding another 45 MW during a second phase. A groundbreaking ceremony for the project, which is billed as the largest privately-owned solar power plant in Angola, took place earlier this month.

What is the Angola solar project?

The Angola Solar Project creates new opportunities for Angolan communities that will no longer be forced to rely on and pay for gasoline or diesel generators. Each one of the five projects that comprises the Angola Solar Project will supply the needs of 500,000 Angolan homes, mainly in rural areas.

How many homes will a solar project supply in Angola?

Each one of the five projects that comprises the Angola Solar Project will supply the needs of 500,000 Angolan homes, mainly in rural areas. Sun Africa was awarded the prestigious "ECA/DFI-backed deal of the year" by "TXF Perfect 10" for Sun Africa's 370 MW solar PV project in Angola.

Jun 10, 2025 · Jinko Solar, the global leading PV and ESS supplier is proud to announce its role as the exclusive module supplier for the Quilemba Solar Project, a landmark renewable energy ...

Jul 21, 2025 · Construction is advancing steadily on the Luena Solar Park, a
