-----  
Where is the solar greenhouse project located in Barcelona?

The Natural Park of Collserola, on the outskirts of Barcelona, is the setting for the Solar Greenhouse project, carried out by a team of students, professionals, and experts of the Masters programme in Advanced Ecological Buildings and Biocities (MAEBB) of the Institute for Advanced Architecture of Catalonia (IAAC) Valldaura Labs.

Does Mes Barcelona install photovoltaic panels?

MES Barcelona also installs photovoltaic panels for residents' associations. The funders of the photovoltaic installation sell the energy to the building's owners, and at the end of the energy sale contract, ownership of the panels is transferred to the building owners at zero cost.

What is the Catalan Green Energy Initiative?

The aim of the initiative is to promote green energy generation in the Catalan capital, with 8 projects currently in progress to install photovoltaic panels on large buildings.

What is the solar greenhouse project?

It was built in a short period of time, making the dense forest of Collserola, Barcelona, the home of an ambitious project in the field of architecture and ecological agriculture. From its construction through to its end-use, the Solar Greenhouse project is part of the 'zero-kilometre' philosophy.
