---

In a significant step toward increasing Israel's energy independence and reducing emissions, new government regulations will require the mandatory installation of solar energy ...

OverviewHistory and developmentFeed-in tariffEducational and research facilitiesSolar power stationsFinance and businessSee alsoExternal linksIn 1949, the prime minister, David Ben-Gurion, offered Harry Zvi Tabor a job on the "physics and engineering desk" of the Research Council of Israel, which he accepted. He created an Israeli national laboratory and created standards amongst the different measurements in use in the country, primarily British, Ottoman and metric. Once the laboratory was established, he focused on solar energy

On December 11, 2025, a significant energy regulation officially took effect in Israel: all new residential buildings and certain types of towers are now required to install rooftop solar panels ...
