Are solar panels a problem?

But an emerging problem in the U.S. solar business that installs panels on homes risks slowing the effort to cut the country's emissions. Customer complaints against the country's residential rooftop solar industry have increased dramatically in recent years. One-star ratings on Solar Reviews increased more than 1,000% since 2018.

Why are prosecutors investigating rooftop solar?

Across the country, prosecutors are investigating high-pressure sales tactics and misleading financing arrangements. Some customers say they were victims of fraud and forgery. This threatens rooftop solar's impressive momentum. Now, some solar companies are working to repair the industry's reputation.

Where are solar panels installed in 2020?

Rooftop solar panels installed on homes in Folsom, Calif. in 2020. This segment of the solar industry has grown more than 5,000% in just the last 15 years, according to the Solar Energy Industries Association. Minnesota is suing firms who finance solar power systems for homes.

Are customer complaints a problem in the solar industry?

Customer complaints against the country's residential rooftop solar industry have increased dramatically in recent years. One-star ratings on Solar Reviews increased more than 1,000% since 2018. Across the country, prosecutors are investigating high-pressure sales tactics and misleading financing arrangements.
