---

Located in the western county of Lääne, the project is expected to begin operations in fall 2026. According to the company, it is the largest solar park in the Baltics and ...

But that's not all: to ensure engineering, construction and project management at the highest level, we have opened a new location in Tallinn, Estonia. This means we are directly on site ...

It will be the biggest photovoltaic (PV) production site in the Baltics, with a capacity of 244 megawatt peak (MWp) - enough to power more than 80,000 households in Estonia. ...
