What is a goodwe solar roof tile?

The GoodWe Sunshine Series is an integrated solar roof tile solution for pitched rooftops to replace traditional solar panels and framework for a sleek, aesthetically-pleasing result, that also maximises your rooftop space for more solar production. The integrated tempered double-glass structure ensures the safety of the roof structure.

What is solar roof tile?

Solar Roof Tile designed by ANU is for single groove designed Mangalore Tiles and can be used for all types of Solar Power Applications. We have also kept the rates at par with conventional panel along with mounting structure so that there is not much of an incremental cost to switch over to Solar Roof Tile.

What is the cost of solar roof tiles?

Solar roof tiles typically cost up to three times as much as solar panels. For a 3KW system, you could be looking at up to \$10,000 to \$12,000. The Energy Saving Trust estimates that solar roof tiles can earn a homeowner around \$7250 in FIT payments over 25 years, so you could have a long wait to recoup your costs.

What is the minimum width for a solar roof?

If the building's either axis is 250 feet (76,200 mm) or less, there shall be a minimum 4-foot (1290 mm) wide clear perimeter around the edges of the roof for solar installations. (605.11.3.3.2 Pathways. The solar installation shall be designed to provide designated pathways.)
