Why do you need a solar system sign?

Solar system signs not only encourage workers to stay safe and caution them of hazards, but also provide additional information such as voltage amount and disconnect location. This keeps workers well informed before they begin disconnecting wires, reducing the chance of shock or electrocution. Browse our wide selection of Solar Signs below.

Can I customize a sign & label for my photovoltaic system?

No problem. We're happy to customize signs and labels to fit your specific needs. Call us at 1-886-777-1360! Stay compliant and safe, labeling photovoltaic system components, with this guide.

Do solar panels need to be labeled?

Solar panels, like most giant electrical systems, require proper labeling and signage to warn workers of the potential of arc flashes and short circuiting. Solar system signs not only encourage workers to stay safe and caution them of hazards, but also provide additional information such as voltage amount and disconnect location.
