The biggest battery energy storage system (BESS) in South Africa boasts 1,140 megawatt-hours (MWh) of storage capacity, enough to supply the average demand of 76,000 South African ...

South Africa's energy crisis isn't just annoying; it's costing businesses billions annually. But what if there's a way to keep operations running smoothly even when Eskom stumbles? Enter lithium ...

With cabinet-level efficiencies now hitting 96.5% round-trip (up from 89% in 2020), we're not just storing energy - we're maximizing its value across every charge cycle.
