Who makes supercapacitor in China?

Kamcapis one of the leading supercapacitor manufacturers in China. We supply high-quality ultracapacitors, including coin type supercapacitor, winding type supercapacitor, combined type supercapacitor, module supercaps, high temperature supercap and hybrid capacitor.

What are supercapacitors & EDLC?

Supercapacitors, also known as ultracapacitors and electric double layer capacitors (EDLC), are capacitors with capacitance values greater than any other capacitor type available today. Supercapacitors are breakthrough energy storage and delivery devices that offer millions of times more capacitance than traditional capacitors.

Why should you choose kamcap supercapacitors?

As one of the leading ultracapacitor manufacturers, Kamcap provides high-quality supercapacitors. Because of the advantages of high power density, fast charging speed, and high reliability, along with the rapid development of science and technology, the application of supercapacitors in various fields will become more and more extensive.

Which SuperCap is best for ultracapacitor?

Kamcapis devoted to the research and development of ultracap and strictly control the ultracapacitor production. Kamcap super capacitor, your best choice for supercapacitor! Coin cell supercaps are from 0.047 Frad 5.5V to 1.5 Frad 5.5V, including type C, type H and type V supercap types.

May 12, 2020 · 12V and 24V Graphene Super Capacitors are an emerging technology that will take a key role in the future of energy systems This high capacity super capacitor can replace ...

Types of 24V Supercapacitors The 24V supercapacitor comes with variegated types, each designed for specific applications. The following are the most common typologies: Electric ...
