How many UPS & battery systems have been installed in Switzerland?

More than 30'000 UPS and battery systems have been successfully delivered, installed and are in operation at more than 3'000 clients in more than 100 countries. This success is based on traditional Swiss values that focus on technical excellence and quality in all areas of operation. We welcome you to be part of it.

Who makes uninterruptible power supplies?

Swiss made and designed Uninterruptible Power Supplies for the present and future of the most critical power applications. From Standalone Premium Tower 10-60kW to the most advanced and highest availability modular solution Cumulus Power. Centiel advanced technology takes availability to the next level.

How to choose the right uninterruptible power supply?

As a result, the demands made on uninterruptible power supplies are high. When choosing the right uninterruptible power supply, particular attention should therefore be paid to longevity, energy efficiency and reliability.

Why do I need a redundant power supply?

The benefits of establishing a redundant supply are twofold: neither the failure of a switch mode power supply nor that of an individual phase will cause the 24 V DC control voltage to fail. Each redundant branch is capable of supplying the full output load separately. We want to support you in the best possible way.

Swiss power Solutions can supply an extensive range of both single and three-phase Uninterruptible Power Supplies (UPS). These units range from 650VA to 1.6MVA and are ...
