-----  
What is the VAT rate on solar?

VAT on a range of domestic energy efficiency and renewable energy installations, including solar, is now 0% in Great Britain. This is a reduction from the previous rate of between 5% and 20%. Eligible installations are those included on the Government's list of Energy Saving Measures (ESMs).

Is there VAT on solar panels in the UK?

There's no VAT on solar panels or storage batteries across the UK for all households and charitable bodies. This 0% rate will last until at least 31 March 2027, when it's set to rise to 5%.

Do I have to pay 0% VAT on solar & energy storage?

Solar Energy UK recommends to support the uptake of residential solar and energy storage. All solar and energy storage installations, including maintenance to existing sites, should be subject to 0% VAT. This should include residential energy storage when installed as a standalone measure.

Who can benefit from 0% VAT on solar panels?

Every residential and charitable property can benefit from the 0% VAT rate on solar panels and storage batteries, as long as they hire the same company to purchase and install the kit. In the residential sector, eligible accommodations include care homes, hospices, houseboats, monasteries, and static caravans.

The world of taxation and renewable energy has seen a significant shift in Germany with the introduction of the zero VAT rate on photovoltaic systems, as per Section 12 (3) of the German ...

The simplification regulation for electricity storage systems is also to be welcomed. In particular, the clarification that certain hydrogen electricity storage systems benefit from the ...
