What does Vietnam's Solar Policy update mean for energy storage?

Vietnam's solar policy update highlights growing role of energy storage. (Photo: iStock) Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing location-based pricing and, for the first time, incorporating energy storage systems.

How will Vietnam's new energy storage scheme help investors?

Supa Waisayarat, Vietnam's adversary consultant at Thailand's Super Energy Corporation, noted that the new scheme supports the adoption of storage and provides developers and investors with more transparent pricing, which could encourage more power purchase agreements (PPAs) and improve financing confidence.

What are the conditions for solar storage in Vietnam?

Conditions for systems with storage include a minimum storage capacity of 10% of the solar plant's installed capacity, a charge/discharge time of 2 hours, and at least 5% of total generation used for charging the storage system. Overall, projects with storage receive higher FIT rates. Previously, Vietnam's FiTs were relatively low.

How much does a solar project cost in Vietnam?

Overall, projects with storage receive higher FIT rates. Previously, Vietnam's FiTs were relatively low. In January 2023, the top rate was NT\$1.49/kWh for ground-mounted solar and NT\$1.89/kWh for floating solar, with no regional or storage-based distinctions.

Apr 5, 2025 · ? Policy-Driven Revolution: Mandatory Storage & Market Liberalization
Mandatory 15% Energy Storage Allocation Vietnam's Ministry of Industry and Trade mandates 15% ...

Apr 15, 2025 · Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing location-based pricing and, for the first time, ...

Apr 26, 2025 · Vietnam Energy Storage System Market is driven by increasing renewable energy adoption, declining battery costs, and advancements in storage technologies.

Jun 17, 2025 · As global costs for solar, wind, and battery storage systems fall, Vietnam could replace fixed feed-in tariffs (FiTs) with standardized ...

Feb 1, 2025 · Energy storage is one of the solutions suitable for sustainable development Vietnam's national energy development strategy has set the goal of ensuring a secure energy ...

May 9, 2025 · The BESS system at the PECC2 Innovation Hub was the largest BESS system in Vietnam at the time it began operation in 2021, reflecting PECC2's pioneering vision and role ...

Apr 5, 2025 · ? Policy-Driven Revolution: Mandatory Storage & Market Liberalization Mandatory 15% Energy Storage Allocation Vietnam's ...

Apr 15, 2025 · Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing ...

SunContainer Innovations - Vietnam's rapid industrialization and renewable energy adoption have fueled demand for mobile energy storage solutions. With solar and wind capacity growing at ...

Jun 17, 2025 · As global costs for solar, wind, and battery storage systems fall, Vietnam could replace fixed feed-in tariffs (FiTs) with standardized competitive auctions to procure clean ...

The energy storage systems market in Vietnam has gained momentum in response to the country's increasing focus on renewable energy sources and grid stability. Energy storage ...

May 9, 2025 · The BESS system at the PECC2 Innovation Hub was the largest BESS system in Vietnam at the time it began operation in 2021, ...

Sep 22, 2025 · container energy storage cost vs benefit calculation in Vietnam Nov 20, 2025 This paper provides an up-to-date review of these storage technologies and energy storage ...

Dec 13, 2024 · As Vietnam's economy grows, the demand for energy is rising rapidly, putting significant pressure on the country's infrastructure. This ...

Dec 13, 2024 · As Vietnam's economy grows, the demand for energy is rising rapidly, putting significant pressure on the country's infrastructure. This surge in demand has exposed ...
