-----  
What is Delta Battery energy storage system (BESS)?

Delta's lithium battery energy storage system (BESS) is a complete system design with features like high energy density, battery management, multi-level safety protection, an outdoor cabinet with a modular design. Furthermore, it meets international standards used in Europe, America, and Japan.

What is a battery energy storage system?

Battery energy storage systems are transforming the power supply sector by becoming the heart of energy efficient solutions. They are used in off-grid applications or to boost the limited grid available by efficiently storing and delivering energy to match the load demand.

What is a battery-based energy solution?

This battery-based energy solution helps rental companies and end-users deploy flexible, reliable power. Regardless of the operating mode, by combining an energy storage system and an integrated ECO Controller TM, you can decarbonize your operations, while achieving significant fuel, energy and lifecycle savings.

Does a modular battery cabinet protect a battery?

An essential element of any Modular Battery Cabinet or Racks is of course how well it can protect a battery. With Synerflux's innovatively designed cabinets and racks, you are guaranteed top quality Battery Protection.
