-----  
What is the Wellington Battery energy storage system?

The Wellington Battery Energy Storage System (BESS) will store excess renewable energy ready for use by homes and businesses during peak times. BESS projects play an important role in the future electricity system. Construction of the project will be undertaken by AMPYR's preferred construction contractors Fluence and RJE Global.

What makes our Wellington storage facility special?

Our Wellington storage facility is extra special as it has multiple access points to the storage units and undercover loading areas to protect you from the Wellington weather.

Who is delivering the Wellington Stage 1 Bess?

The Wellington Stage 1 BESS will be delivered by energy storage and software company Fluence, using its advanced Gridstack grid-scale energy storage product.

Where is the Wellington Stage 1 battery located?

On Tuesday, the company announced it had reached financial close on the 300 MW, 600 MWh Wellington stage 1 battery, which is located next to the existing Wellington and Wellington North solar farms in western NSW.
