What is a telecommunication cabinet?

The cabinet is an ideal solution for physical connections of outdoor telecommunication equipment, transmission equipment, power equipment, monitoring equipment, lithium batteries and other supporting equipment. Both active telecom equipment and passive telecom equipment can be accommodated inside the cabinet.

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

What types of equipment can be accommodated in a Datacom cabinet?

Both active telecom equipment and passive telecom equipment can be accommodated inside the cabinet. Cabinets are available with integrated thermal management using air conditioner to control internal temperatures to protect sensitive equipment. DATACOM offers IP55/IP66 rated floor standing equipment Cabinets.

Another advantage of our outdoor telecom cabinets is their high degree of customization. Customers can choose from different sizes, disposition, and integration options to match ...
