What is hypower's uninterruptible power supply (UPS) solution?

Say goodbye to power disruptions with Hypower's tailored Uninterruptible Power Supply (UPS) Solutions At Hypower, we take immense pride in our commitment to delivering the highest quality Uninterruptible Power Supply (UPS) systems that meet and exceed the unique needs of our clients.

What is an uninterruptible power supply?

A UPS uninterruptible power supply is a device that provides instant backup power to connected electronics during electrical outages or fluctuations. It ensures continuous operation, preventing data loss and equipment damage. UPS power supply is vital for computers, servers, and critical devices. How does an uninterruptible power supply work? >

What is Epica uninterruptible power supply (UPS)?

Epica Uninterruptible Power Supply (UPS) products are specifically custom-designed for the Philippine market. Ranging from as low as 650VA to as high as 40KVA, we cater to every need from the household to the industrial. Time-tested and quality-assured, Epica is here to provide worry-free power supply that lasts. Now that's EPIC Power.

What are the different types of uninterruptible power supply (UPS) output waveforms?

There are two types of uninterruptible power supply (UPS) output waveforms: sine wave and square (rectangular) wave. A sine wave UPS is recommended because it is compatible with PC servers. While square wave UPS units are more affordable and easier to find, they are not suitable for PC servers with built-in components.
