How is electricity sold in New Zealand?

Electricity is bought and sold on the wholesale market. There are about 330 participants in New Zealand's wholesale electricity market. The wholesale market is where generators sell electricity and retailers buy electricity. Retailers then on-sell that electricity to businesses and households across New Zealand.

What is the wholesale market in New Zealand?

The wholesale market is where generators sell electricity and retailers buy electricity. Retailers then on-sell that electricity to businesses and households across New Zealand. There are about 80 generation companies, 62 retailers and 6 gentailers (generator-retailers) in New Zealand's wholesale market.

Who generates electricity in New Zealand?

In New Zealand electricity is generated by 4 major electricity generating companies. Genesis Energy, Mercury and Meridian Energy operate under a mixed ownership model in which the government holds a majority stake, while Contact is a private sector company. Generation companies own and operate power stations across the country.

Wholesale Electricity Prices Are Highly Variable Price Certainty For Our Customers Reliable Returns For Investors In New Zealand, wholesale market prices vary a lot depending on the balance between which power stations are available to generate, and how much electricity customers need at any one point in time. Customer demand can change a lot at different times of the day or year. For example, on cold winter evenings demand is high, but it's generally much low...
